Statement from Most Rev. Robert M. Coerver on testing positive for COVID-19

As part of my preparations for upcoming planned travel, I took multiple tests, and I have tested positive for COVID-19. I canceled plans to participate in the Region X Bishops retreat in San Antonio this week.

I am fully vaccinated and received a booster. I am experiencing relatively mild symptoms.

We continue to hear that the Omicron variant of COVID is taking hold in West Texas, so I ask you to be cautious and use the tools to help slow the spread of this virus.

I pray in thanksgiving for knowledgeable medical professionals. I ask you to join me in prayer for all those who are suffering from this virus, and I ask you to join me in prayer for all medical professionals who continue the battle of treating COVID patients.
